Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

- 6) ☐ Other: ____.

Election/Restrictions

This application contains claims directed to one or more of the following patentably distinct species of the claimed invention: There are three main species of cooling device disclosed; the embodiment of Figs. 1-14 (no integrated fan and heat sink disclosed), the embodiment of Figs. 15-26 (integrated fan and heat rejection fins), and the embodiment of Figs. 27-32 (fully encased fan).

The Figs. 1-14 main species contains several subspecies, shown in Figs. 4-5, Figs. 6-7, Fig. 8, Figs. 9-10, Figs. 11-12, Fig. 13, and Fig. 14. The Figs. 15-26 main species contains three subspecies, shown in Figs. 21-23, Figs. 24-25, and Fig. 26. The third main species of Figs. 27-32 contains no disclosed subspecies. Finally, there are five disclosed species of conductive filler material to which claims are directed: carbon nanotubes, graphite (carbon fiber), graphite sheets, aluminum filler, or aluminum nitride filler.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed main species (one of Figs. 1-14, Figs. 15-26, or Figs. 27-32) and a single species of conductive filler (one of carbon nanotubes, graphite (carbon fiber), graphite sheets, aluminum filler, or aluminum nitride filler) for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Also, if the main species of Figs. 1-14 is elected, one of the subspecies noted above (Figs. 4-5, Figs. 6-7, Fig. 8, Figs. 9-10, Figs. 11-12, Fig. 13, and Fig. 14) must also be selected. Similarly, if the main species of Figs. 15-26 is selected, one of the subspecies noted above (Figs. 21-23, Figs.

24-25, and Fig. 26) must be selected. Currently, claims 1 and 11 appear to be fully generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Allen J. Flanigan whose telephone number is (571) 272-4910. The examiner can normally be reached on M-F 9:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gene Mancene can be reached on (571) 272-4930. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
